TERMS OF SALE

1. This is a combination floor auction and mail bid sale conducted by El Dorado Coin Galleries, Inc. (EL DORADO). Subject to EL DORADO'S consent, all persons, including consignor's, EL DORADO, and its principals may bid on any lot.

2. Each lot will be sold to the highest bidder at a slight advance over the second highest bid. In the event of floor disputes, the auctioneer's determination will be final. Auctioneer reserves the right to refuse any bid at his sole discretion.

3. All bids are to be per lot; no lot will be broken. Lots will be sold in their numbered sequence unless Auctioneer directs otherwise.

4. Auctioneer reserves the right to open the lot at a reasonable price and to withdraw any lot at any time.

5. EL DORADO reserves the right to postpone the auction sale or any session thereof for a reasonable period of time.

6. When a mail bidder submits the high bid on a lot, he will be awarded the lot at a nominal 5 to 10% advance over the second highest bid. Bids are accepted in whole dollars only. All others will be rounded to the nearest dollar. For the bidder's protection no "unlimited" or "buy bids" will be accepted. All bid sheets must be signed; company bids must be submitted with a personal signature. We cannot assume responsibility for any errors made as to lot number or amount on mail bid sheets, so check your bid sheet carefully. Bids by mail, phone or cablegram must be received two (2) days prior to sale date. Phone bids must be confirmed by mail.

7. In the event of tie winning mail bids, the first bid received will be awarded the lot. A mail bid will take precedence over an identical floor bid; a floor bidder must bid higher than the highest mail bid to be awarded any lot.

8. Your bid, which represents the limit that you are willing and able to pay, will be executed with a 10% buyer's charge.

9. Terms of this sale are strictly CASH in U.S. Funds payable through a bank in the United States. Lots must be paid for upon receipt of invoice or delivery. Delivery of lots at the sale will be contingent upon prior credit arrangements or payment of bill in full either by cash or check (no credit cards will be accepted).

10. Floor bidders and mail bidders who have not established credit with EL DORADO must furnish satisfactory credit references or deposit at least twenty-five percent (25%) of their total bids. Deposits submitted will be applied to purchases and any unused portion of such deposit will be promptly refunded.

11. Postage, insurance or registration fees will be added to the invoice to successful bidder when mailing lots is required.

12. All lots delivered in Texas are subject to Texas sales tax laws. Individuals purchasing lots for resale must submit an exemption certificate signed by the purchaser or his agent and recognized by the State of Texas with their current seller's permit number, or be subject to the sales tax.

13. In the event a successful bidder fails to make payment when due, EL DORADO reserves the right to resell the merchandise and bidder agrees to pay for the reasonable cost of such a sale and also to pay any difference between the resale price and the previously successful bid.

14. If an auction invoice is not paid for in full when due as per invoice terms, the unpaid balance will bear interest at the highest rate permitted by law until it is paid. If the matter is referred to an attorney for collection, bidder agrees to pay all attorney's fees, court costs and other collection costs incurred by EL DORADO.

15. Title to any lot remains with CONSIGNOR until the lot is paid for in full. EL DORADO reserves the right to require payment in full before delivering any lot to the successful bidder. It is the buyer's responsibility and obligation to have the lots fully insured while in his/her possession. Risk of loss is on the buyer.

16. All photographs in this catalogue are of the actual item being sold, but may not be the actual size.

17. All items offered in this catalogue are guaranteed to be genuine, unless otherwise noted. Claims to the contrary must be made in writing within (5) days after receipt of merchandise. No lot may be returned without prior written consent. In no event may any lot be returned after thirty (30) days from the date of sale. Late remittance constitutes just cause for revocation of all return privileges for any reason.

18. This is not an approval sale. All lots sold to the highest bidder as determined by Auctioneer are final. Floor bidders are encouraged to carefully examine all lots in which they are interested in purchasing since NO LOT PURCHASED BY A FLOOR BIDDER MAY BE RETURNED, including those lots where the bidder is acting as an agent for another, or to mail bidders who have examined the lot.

19. Bids will not be accepted from those persons under eighteen (18) years of age without a parent's written consent which acknowledges the terms and conditions of this sale.

20. By bidding in this sale, bidder personally guarantees payment. If a corporation is a bidder, the officers and/or principals of the corporation agree to personally guarantee payment.

21. Neither EL DORADO nor the Auctioneer shall be responsible for incidental or consequential damages arising out of any failure of the terms and conditions of the auction and sale or the conduct thereof and in no event shall liability for any such failure exceed the purchase price paid.

22. Bidding in this sale constitutes acceptance by the bidder of all the foregoing terms and conditions of sale.

Master Bid Book entry

If there are no floor bids to better the opening bid, then you, as high mail bidder, are awarded the lot at opening bid price. If there is floor bidding, we act as your agent and bid competitively for you up to your mail bid amount if necessary. Your bid should be the absolute maximum that you would be willing to pay for that lot. Following the above procedure, we will always try to obtain the lot for you as inexpensively as possible; you will not necessarily have to pay the full amount of your bid.

Before you enter your bids, please be sure to read the TERMS OF SALE very carefully. If you have any questions about bids you wish to submit, please call us. We appreciate your participation in this and future sales.

The first railroad in Austria was the Kaiser Ferdinand Nordbahn which opened in 1837 and ran from Vienna into Czechoslovakia. In the next decade, the state took a hand in various railways including the famous Semmering Main Line in 1851 (over the mountains) linking Vienna to Trieste and Italy. It was reestablished in 1857, after changing the width of the tracks and installing a double track to permit two-way traffic.

Today's Austrian Railroad System does not compare to its early operation, conducted with a royal and imperial air. The defeat of World War I led to the loss of lines which is now Hungary, Romania, Poland, Czechoslavakia, Yugoslavia and Italy. Furthermore, Hitler's Anschluss in 1936 meant further degrading of the Austrian railways.

The cataloguer has seen only a single specimen of the Medio Real, which was offered by Almanzar's Coins of the World in the Texas Numismatic Association , Houston Auction of April 26-27, 1974, and in EF-AU brought $600.00. Second in rarity is the 8 Reales, which has been offered six times or so, mostly by either Almanzar's or Freeman Craig. Of the 8 Reales, there are two types which are listed by Calico-Trigo amongst the 8 Real series and was also considered by Herrera as an important emergency coin in his "EL DURO" publication, Finally, a few of the 2 Reales turned up 10 years or so back but the supply now seems to be diminishing.

418 -Un Colon 1925Mo.Mexico. 400th Anniversary of San Salvador. Bust / Arms. Y.30, E.15. Attractive, with light essence of toning and lustre. AU-UNC 250-350

The provisional coinage of El Salvador is made up of an interesting series of major variations within each type, which have been given less attention than they deserve. The Krause listing is a fairly good study of the series. Variations of legends and designs are painstakingly defined in Almanzar's- Stickney's book "COINS AND PAPER MONEY OF EL SALVADOR". These coins are not only an interesting series, but the acceptance of their rarity is yet to be appreciated by collectors.

The two specimens offered above are quite desirable as their legends are well detailed, which is not usually the case for this issue.

COUNTERMARKED-COINAGE

430 -8 Reales 1752J (weak date and also partly covered by countermark). This coin is of the Type-III Krause countermark with the single mountain and large quetzal, except that the countermark is double-stamped, making it difficult to see without the aid of a magnifying glass. Coin and countermark are FINE. (Cataloguer is estimating the coin low due to the crudeness of the countermark). 1000-1500

A few of these coins came to light in the offering of the Castillo Collection by Almanzar's Coins of the World (1981-1982) during which time, this countermark on a heart-shaped Potosi 8 Reales 1729V, brought $13,000. The above coin is similar to lot #723 of the November 30, 1981 auction of Almanzar's which was estimated at $5,000 and brought $2,750.

The Carrera Peso of 1859 (plain date) exists in two major varieties. One has never been published in THE STANDARD CATALOG OF WORLD COINS by Krause-Mishler. The first variety has the common obverse with no period below "E" and "A" of the "PE" and "RA" in legend. The second variety, the one we are offering above, has the Very Rare obverse with periods below "E" and "A". This was in fact the obverse adopted for the Rare 1859R!

HONDURAS PROVISIONAL GOVERNMENT COINAGE (1823-1824)

446 -1/2 Real 1823. Unlisted. Monogram & date/Fleury or Gable Cross (Of the type used in Honduras 2 Reales 1823, C14, C17), with 4 large dots on each quarter. It is obvious from their characteristics, that these 1/2 Real coins, as well as Honduras C11 & C12, were struck at the Mendoza Mint, and in fact, all of the Mendoza issues appear to have circulated and more so in Central America where they are found to be well circulated and sometimes holed. Also, although they are generally assigned to Honduras, there are also some opinions that they circulated widely in Central America. The cataloguer feels that it is possible that they were introduced for circulation in Nicaragua, Honduras, El Salvador, Guatemala, and even Costa Rica. Interestingly, in an auction held by J. Schulman in Amsterdam on Sept. 11, 1911, offering the second part of the spectacular Monsieur Oscar Salbach collection, eight lots were assigned under the title of "MONNAIES OBSIDIONALES DES REPUBLICQUES REUNIES DE NICARAGUA, HONDURAS ET SAN SALVADOR". Those lots included several counterstamped coins including a cob in the plate section, with the characteristics of the so-called crude Indian types. However, the counterstamp seemed to reveal two mountains with a radiant sun above (somewhat similar to the counterstamp of Guatemala, but with obvious differences). A second counterstamp appeared in the reverse, still somewhat similar but yet another different type. Among the coins was also the well-known (not so rare) Pattern 2 Centavos of 1889, listed under Central America as Guttag-977A. One then must conclude that coins, including the cob coinage of the Hispanic world mints adapted by counterstamps, continued circulating freely in more than one country, even after the dissolution of the Central American Federation in 1839. Also, after that, the mints of Costa Rica, Guatemala, and Honduras continued to strike coins of the Federation until 1851, when the last of the Central American 1/4 Reales were struck by the Guatemala Mint.

The coin hereby offered is a straggler from the important Castillo silver coin collection (emanating from Guatemala), which was featured by Almanzar's Coins of the World and spaced in 13 auction catalogues from Nov. 30, 1981 to Feb. 6, 1984. Several unlisted coins and emergency counterstamp issues came to light then, including Lot 931 of the Nov. 30th auction, featuring the Honduras 1/2 Real of 1823 (C11). Although the coin then offered was Extremely Rare, the proper adjective in describing this piece can only be "unique" as no other specimen is known. The C11 then offered was estimated at $5000-8000 and sold for $3,150. This coin is practically as struck and we feel a fair estimate is . . . . . 5000+

It seems that perhaps because of a lack of information, numismatists such as Taullard, Guttag, Rosa, & Medina failed to do in depth research of this series of coinage. Mendoza, a city and province of Argentina, was at a time, called the Valley Forge of South American independence. During the term of Governor Pedro Molina, a mint was established in 1822 by the law of December 12. However, the patriots opted to design the coinage imitating the Spanish Colonial cob coinage, which was better known to them, but the coinage was apparently not well accepted, and a year later, all coins were withdrawn from circulation.

Cunietti Ferrando, in his book "MONEDAS DE LA REPUBLIC ARGENTINA" states that for lack of currency in circulation in 1822, a coin called "El Cuno" was issued by the then governor of Mendoza, Pedro Molina. Later, during his second administration in 1835, the denominations 1/8 Real and 1/4 Real were issued. The latter, because of their designs and legends, were more appropriate to local consumption, as none seem to have surfaced in Central America.

In an article from the book "THE COINAGES OF LATIN AMERICA AND THE CARRIBEAN", in which selections of articles from the A.N.A. were compiled, Arnold Perpall, in his article, "THE LAST COLONIAL AMERICAN COBS 1823-1824", didn't seem to have all of the answers to these coins. He photographed 23 types of Mendoza issues (none of which is the coin hereby offered, nor the Honduras issues assigned as C11 & C12), and he stated that occasionally pre-war sales in Europe offered them as as being of the greatest rarity.

The cataloguer, upon his acquaintance with this particular coin in the Castillo Collection, held it back along with other different types (but no more than can be counted on the fingers of one hand). I then felt that more information was needed. However, after obtaining the consensus of opinion of some numismatists, including collectors in Central America, my conviction is that it should be assigned to at least the country of Honduras, if not to several Central American countries, where the pieces seem to have circulated.

HONDURAS

447 -5 Centavos 1871. Coat of arms/Value in wreath. Y5. This is one of the key types of Central American minor coinage. Practically EF with light golden tones, but, with the usual weakness which characterizes all types of this date, including the less rare 10, 20, and 50 Centavos of the same design. A Pedigree from the Ex-Brand as well as the Ex-Norweb collections. 600-800

The cataloguer finds a previous offering of this coin by Freeman Craig & Co. in their May 1977 fixed-price list in VF-EF at $950. He also stated previous offering at $850 for which he received six (6) orders!

448 -1 Peso 1895. Arms/Liberty head. Fr6, Y27. Nearly as struck with slight hint of wear in obverse. Will grade AU. Pedigree from the Norweb collection (only 43 pcs reported). 500-800

449 -5 Pence countermark GR monogram on Lima 1756 1/2 Real 1756. C1.2. Coin and countermark EF with some patina. Although these countermarks are quite Rare, the following estimate is still within the reach of the average collector. Pedigree Ex-Brand, Ex-Norweb. 350-500

MEXICO-CHARLES AND JOHANNA (1516-1556)

450 -1/2 Real ND (G-M). Crowned K-I/Crowned pillars. KM6.5, Nes.39. Beautiful example of this coin. Practically EF with some creasing. Ex-Norweb Collection. 300-400

451 -3 Reales ND, assayer R. Gothic M's around crowned arms/Crowned pillars, three (3) dots (denoting value) above. KM 13, Nes.5c. This coin is listed in Nesmith with a partial obverse legend as Nesmith's specimen seems to be weak and he was unable to decipher the full legend. However, this particular specimen appears to have a very small and weak A for (Johanna?). In an unprecedented offering by Almanzar's Coins of the World in August 1972, they listed three (3) pedigrees from the Nesmith catalog: Nes.5, Nes.5a and Nes.5d. This was probably the most important sale ever on Mexican 3 Reales and those specimens brought $5,000, $5,000 and $5,600 respectively, with a total of $15,600 for the trio.
The consignor's expectations for this coin, in Very Fine condition, is therefore more than justified when estimating it in VF for 4000-5000

The 3 Reales coin denomination was discontinued in 1537, to be replaced by coins of 4 Reales. The denomination is denoted by three dots or three bars between the pillars of Hercules in the reverse. All of these early coins bear the legend PLSVLT (or some variation of this) across the pillar which later evolved into PLUS ULTRA. All of the 3 Reales coins bear the assayer initial "R" for Francisco del Rincon, the first assayer and foundryman at the Mexico City Mint and therefore, in the Americas.

The cataloguer estimates that of any single type, at the most, only four to a "Baker's Dozen" exist. It appears that the great degree of rarity is due to: A) not many had been struck when the decision was made to replace them for the 4 Reales denomination; B) with the 4 Reales denomination being used, in order to avoid confusion, it was probably decided to destroy the 3 Reales; C) I hazard to guess that the majority were lost at sea. For this reason, a good portion of the pieces extant, are salvaged specimens.

452 -3 Reales ND, assayer R. Latin "M"'s around crowned arms/Crowned pillars. A not yet catalogued type. Missing in Nesmith as well as Krause, Bruce, & Vogt, etc. The coin hereby offered has the type of shield similar to that encountered in Nesmith-5b, 5c, & 5d, which divides the inner beaded dot circle. However, the Latin "M" is similar to that of Nesmith-5a and KM15. (The "M" to the right is missing due to crudeness of the strike, but some outlining of the second Latin "M" is just visible). However, the coin is muled to the reverse of Nesmith-5a, and the denomination stated in three pellets. (Availability of coin pedigree if desired). This Excessively Rare coin is hereby offered in VF condition with some visibility of being abated by sea water, but remaining quite Choice. . . . . ---
